

46TH

WASHINGTON RANKS 46TH IN THE NUMBER OF HIGH SCHOOL GRADUATES ATTENDING A DEGREE-GRANTING INSTITUTION.

For years, our state's public universities have experienced chronic disinvestment by our state government, which increases barriers for student access. Funding our public universities is a vital investment for the quality of life and the creation of jobs in Washington.

Support higher education this election season by voting for candidates who pledge to ensure our public colleges and universities remain a priority for funding.
