

A PUBLIC SERVICE ANNOUNCEMENT

Washington is the worst.

Well, almost. Despite being the best place in so many respects, only \$2 separates Washington from dead last place in per-student funding. Every year, Washington gets closer and closer to being the worst in the nation in supporting students. Voice your support to your legislators and let's build the future that Washington students deserve. It's time to invest in our state's most valuable resource: our kids.

THE GREATER *good* CAMPAIGN
